PRASANTH R

DATA ANALYST | EXCEL • POWER BI • SQL • PYTHON

Email: pprasanthrajan@gmail.com | Phone: 6369727736 | Location: Coimbatore, Tamil Nadu

PROFESSIONAL SUMMARY

Computer Science graduate with project experience in data analysis, interactive dashboards, profitability analysis, manufacturing performance reporting, and relational database design. Skilled in Excel, Power BI, SQL, and Python fundamentals, with an interest in turning raw data into clear business insights and supporting data-driven decisions.

TECHNICAL SKILLS

Data Analytics: Excel, Power BI, Power Query, Data Cleaning

Programming & Databases: Python ,SQL, MySQL, SQL Queries

Web Technologies: HTML5, CSS3, JavaScript, Bootstrap

Tools: Git, GitHub, VS Code

Core Concepts: OOP fundamentals, REST API / FastAPI fundamentals

Soft Skills: Problem Solving, Communication, Team Collaboration, Adaptability, Continuous Learning, Attention to Detail

PROJECTS

- **FreshMart Profitability Leakage Analysis —** Analyzed profitability patterns and potential leakage areas using data summaries and visual reporting.
- **Trend Mart Profitability Leakage Analysis —** Explored retail profitability and category performance to communicate business insights.
- **Aero Home Manufacturing – Production Performance —** Presented production and operational metrics through a performance dashboard.
- **Navitech Manufacturing – Production & Plant Performance —** Organized production and plant metrics for operational monitoring.
- **Health Plus Care Database & Medicare Database —** Designed healthcare-related relational database structures and SQL query examples.
- **Smart Zoo Management System —** Created a system interface concept for animal management, booking, and zoo operations.

CAREER OBJECTIVE

To begin a career in data analytics by applying Excel, Power BI, SQL, and Python fundamentals to build useful reports, analyze business performance, and solve practical problems while continuing to learn.
